

**AMENDMENTS TO CLAIMS:**

The listing of claims will replace all prior versions, and listings, of claims in the application:

**LISTING OF CLAIMS:**

1. (Currently amended) A ~~timekeeping device~~wrist watch that counts a local time and that includes a display device, a time synchronization client and a wireless communication device that connects the time synchronization client to an access point capable of accessing a time server through a network including the Internet,

the time synchronization client transmitting a query signal for querying a time server through the network to receive a current server time from the time server,

the time synchronization client receiving a current server time from the time server, and

the time synchronization client adjusting the local time; and  
a controller to power down said time synchronization client at least some of the time during which said time synchronization client is not transmitting said query signal.

2-5. (Cancelled)

6. (Currently amended) The ~~timekeeping device~~wrist watch of Claim 1, further including a transmitter for wirelessly transmitting said query signal to said access point.

7-9. (Cancelled)

10. (Currently amended) The ~~timekeeping device~~wrist watch of Claim 1, further including a memory for storing time zone information and a controller for adjusting the local time based on said time zone information.

11-24. (Cancelled)
